

Employee Excellence

This month's Champion Employee of Excellence is Kyler Bartell. What Kyler loves the most about MHLC is the family atmosphere that has

been instilled throughout the hospital. This family atmosphere makes every day enjoyable when working with staff from multiple departments. As an outsider, and being here for just over 3 years, I feel welcomed, appreciated, and have a feeling of genuine care from everyone, including the patients. I love that there is a wide range of learning opportunities here at MHLC and the providers challenge me every day to continue to grow and expand my nursing practice. I am very grateful to be a part of MHLC and its mission. I look forward to

continuing my career here for many years to come because of the quality care and compassion by everyone here at MHLC. Kyler's coworker states that "they truly enjoy working with Kyler. He is always dependable, very knowledgeable. Kyler drives the farthest and is always here on time. On nights he is our IT person, he knows a lot about computers and TV's. He is a great teacher to the CNA's in always letting us learn as he works. If I had a choice, I would always work and learn from him". His willingness to go the extra mile, help wherever needed and his great work ethic are why Kyler is our September Employee of Excellence. We are proud to have him on our team of Champions.
